Threats, corporal punishment, abducted pets and student torture will eventually be reciprocated. Will you be able to help him get his revenge or will you get caught up in the effort? It's about a genius girl and her worst high school teacher. This horror game for (almost) the entire Scary Teacher 3D family offers us a world that we can explore through Professor Miss T's 15 bedroom house. To do this, you have to buy or search for stuff, figure out how to keep moving forward and do your jokes without getting caught. What's the ideal revenge? As a result, the experience can sometimes be a little daunting, although in general it generates more excitement and satisfaction than others. Throughout the game you will be able to leave the teacher hairless, exploit the things on his face, make him eat disgusting things, catch his fingers in a mousetrap and all kinds of crimes to complicate his existence. The controls are simple and slight, but the handling can be a little tricky, especially when Miss T catches you and you want to come out in one piece. The graphics are also nothing from the other side, but they are quite true and for this type of game. Of course, no one gets the idea for real life.
